## Free Stuff: PRAVANA NEVO SET

It seems like everyone is rocking textured hair nowadays. Well with all the cool 'it' girls and models wearing the look, we're not really surprised. The best part about it is that it's super easy to recreate, no matter what your skill level is. All you need is this duo from PRAVANA to get you started. The **Lived-In Powder Potion** is the only product you need to get that gritty, second day hair you always wished you had on the first day. The lightweight powder magically transforms in to a velvety pomade in your hand, making styling super easy (and not even close to greasy). Finish it off with the **NEVO Super Shape Hairspray**, a frizz-defying formula that leaves hair with a soft, touchable finish. Two lucky readers will score the set today! Follow us on Twitter for more giveaways!
