

PRAVANA™

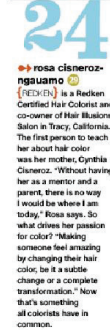

- IN THE PRESS -

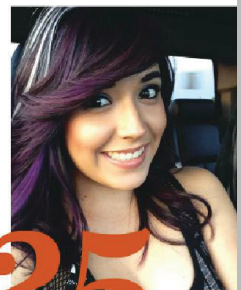

✦ **alice warner** 📍 (ORGANIC COLOR SYSTEMS) works at Salon deZEN in Alexandria, Virginia, where she takes pride in knowing that she has made each client look and feel beautiful. "I love organic color because I know I can improve someone's confidence one brush stroke at a time without jeopardizing their health or my own," says Alice, who has been influenced by color mavens Beth Minardi, Aveda's Ian Michael Black and Rebecca Gregory of Organic Color Systems. In her future? "I definitely see myself doing platform and editorial work," she says.

✦ **marley macedo** 📍 (ALON) discussed her passion for hair color while still in beauty school. A colorist at Fringe Salon in Houston, Marley enjoys being part of the Alon team because of the education they offer. "It's fun and I'm constantly learning something new."

✦ **rosa cisneros** 📍 (REDUX) is a Redken Certified Hair Colorist and co-owner of Hair Blasons Salon in Tracy, California. The first person to teach her about hair color was her mother, Cynthia Cisneros. "Without having her as a mentor and a parent, there is no way I would be where I am today," Rosa says. So what drives her passion for color? "Making someone feel amazing by changing their hair color, be it a subtle change or a complete transformation." Now that's something all colorists have in common.

✦ **kristin golembiewski** 📍 (BROCATO HAIR COLOR, PRAVANA) has had the good fortune of working with a lot of really talented hairdressers, including Nick Arrojo (she worked for his cosmetology school in New York City). Now that she's working at his eponymous salon in New York City, she can add Sam Brocato to the list.
