GEMs of Beauty: Back-to-School Beauty

Need a total do-over? In the mood to get a little wacky? Why not try an unusual color in your hair? You don't have to go whole-head—just try a few highlights or do the ends (which can then be chopped off). Go for a bright red or orange or yellow to match the fall foliage, or ask your stylist to go even more funky with **PRAVANA's ChromaSilk Luscious Lavender**, a gorgeous lavender. Oh go on—you know you want to! Just remember that if you do color your hair and use bleach at any point, be sure to use color-protective products, like **PRAVANA's Vivids Color Protect** Aftercare Collection of shampoo, conditioner, and sealing spray. And if you get hooked on color the way I am, be thrilled with your adventurousness. Next month, blue, right?
