## MOLLS BEAUTY BAG: RED CARPET READY HAIR

### GO EDGY LIKE EMMA.

Right now, we're all about the bob and while I'll be keeping my long locks for now, I definitely have a little short hair envy going on...especially when I see these kinds of looks. Emma Stone's blunt bob is cut just above the collarbone and is softly textured around the perimeter. She chose to dress it up for the Golden Globes with an unexpected barrette in the back. How cute is that for a girl who's known as much for her independent spirit as she is for her award-nominated roles?

To create at home, follow **PRAVANA Global Creative Director Sherri Jessie's lead.**

- 1) Mist PRAVANA NEVO Color Lock to extend the life of the vibrancy of hair color and make it softer, stronger, and glossier.
- 2) Distribute an egg-sized amount of PRAVANA Full Volume Volumizing Foam and blow dry.
- 3) Wrap medium sized sections of hair on a 1 1/4" curling wand. Curl hair away from the face on each side.
- 4) Comb through the hair with a wide toothed comb and accessorize with a large barrette in the back, below the occipital bone.
- 5) Lightly spray with PRAVANA NEVO Super Shape Hair Spray to smooth down any flyaways.
