SUNSET HUES

Wouldn't it be nice to see a sunset every time you looked in the mirror? Just follow Lily Allen's example and shade your strands all the colors of the pre-evening sky! **PRAVANA's Artistic Color Director Vadre Grigsby** shares this is a color melting technique that blends the colors where they meet. Your pro colorist can create the look by using tint brushes to apply color.

PRAVANA VIVIDS colors Violet, Wild Orchid, Magenta, Orange and Pink, and PRAVANA PASTELS in Too Cute Coral, then blend the shades with gloved hands. Gorgeous!
