

BIOJEN 9

The Natural Innovation for Optimal Hair Growth.

BIOJEN 9 helps hair grow faster, longer and stronger! Our exclusive four product system targets the critical issues that retard hair growth. Pravana's clinically-proven ingredients place hair and scalp in optimal condition for maximized growth.

Three primary ways BIOJEN 9 helps hair reach its full growth potential:

1. BIOJEN 9's Programine - T Complex™ contains oleanolic acid, derived from olive tree leaves, to effectively combat the effects of DHT (Dehydrotestosterone - a natural hormone which atrophies the hair follicle) at the scalp and assists in promoting a healthy follicle.
2. BIOJEN 9's contains apigenin, a citrus flavinoid, which when massaged onto the scalp increases circulation and provides added oxygen and vital nutrients to the follicle.
3. BIOJEN 9's contains 4 different alphahydroxy acids to cleanse and exfoliate the scalp of excess oils and dead surface tissue and an exclusive biotin-enriched tri-peptide to help better "anchor" the hair bulb to avoid premature hair loss.

*BIOJEN 9 is the natural solution with no dangerous side effects or health risks.

Product Feature Comparison

BIOJEN 9 vs. NIOXIN

PRODUCT FEATURE	PRAVANA BIOJEN 9	NIOXIN
Sulfate Free Cleansing	Yes	No
Color Safe Formulas	Yes - all products are color-safe	Only 4 of the 8 Nioxin regimens is color-safe
